STUDENT TESTIMONIAL

Shamitha

My Nata first attempt was fully filled with fear and I sat nervously in front of computer.I was very confused how to prepare after 1st attempt.Now am very glad that i have joined i-arch.To be honest I was not a person with good architecture knowledge.But these i-arch regular classes made me to gain more useful tricks and knowledge.These classes are not like Teaching-Listening only.They teach us whole heartedly,they interact with us very friendly and try to take the things to our mind in an interesting way.No hesitations in asking any doubt about anything .It perfectly as much as they can.I personally like i-arch because they made me to believe that i can attend the 2nd attempt confidently.They not only train us to score good in Nata/Jee but also trains us as a basic architectural student to step into college.They even helps us in getting info about anything related architecture.Its like FREE TO ASK ANYTHING!Yeah I am proud to be an i-archian.

C. Poorvah

A very great place for someone who is very determined and passionate towards architecture and other design courses since all the staffs are friendly and makes many effort to keep the class interactive and interesting!

Abrajithan T

Besides academic, One main thing is we can contact directly to Shabath sir and Abu sir, and clarify whenever and whatever it is. To be honest Thomarai sir is better than the general aptitude sir who taught us in first attempt (no offense). The works hema mam gave us to engage ourselves was really no other teacher or institute could do.

Dear sir, My daughter M.Rudra studied in iArch coimbatore during this year (2016) for the coaching class for NATA and has achieved a score of 124. Now she is studying in SAP Anna University. I could say this achievement is purely on the coaching given by your institute by the dedicated teachers. iArch is the only unique Institute that cares more about their students. I have observed your commitment to the students by clearing their doubts even in odd hours. I can simply say that we have paid only Rs.17000/- as fee and you have made my daughter to save Rs.120000/- by getting a seat in Anna University. This institute takes complete care for their students till their admission in good colleges. Thanking you and wishing you to grow more and serve.

Architecture is a booming industry but only with passion and great interest, students can achieve it. We create the passion and interest towards architecture among students by making them understand that architecture is not to learn theoretically but to learn things practically. We give them more practical exposure and train students with professions on the specific field. It's been more than 7 years since I-Arch started its Nata training. In these years we have not only trained students for nata but also we gave them the basics of architecture and the best college, that's why still students are in touch with us. We work as a team that's how we can give the students and parents better coaching and complete guidance. Our faculties and staff are our strength.
